WHO SHORESOFX SERVES

soxerosion.com

IDENTIFY THE OPPORTUNITY

Do your shorelines
look like this?

IDENTIFY THE OPPORTUNITY

Are you losing
land? Is it
washing out into
the water?

Have you
considered
solving this
issue?

Many companies try to solve these problems with standard solutions that often look bad or don't last.

STANDARD SOLUTIONS

ShoreSOX is a permanent bioengineered solution to shoreline and hillside stabilization.

RipStop
Modular
UV Stabilized

Lightweight
Weight Bearing
Slope Integration

FEATURES OF SHORESOFX

Patented

Made in the USA

Warranty

ADVANTAGES OF SHORESUX

Safety

Stabilized edges reduce risks for pedestrians and maintenance crews.

Stability

Prevents erosion and enables shoreline expansion without regrading.

Aesthetics

Creates natural-looking, vegetated shorelines that blend into the landscape.

Root Structure

Roots penetrate through the mesh, anchoring into the soil and reinforcing the slope.

Water Quality

Percolates water and reduces pollutants through a natural filtration process.
